ABIS RICEBRAN OIL

Another name for rice bran oil is "HEART OIL". Solvent - Soya / Rice rice bran oil is produced by solvent extraction of the bran residue left over from the polishing process. After refinement, this Solvent oil yields rice bran oil. High-quality ABIS Ricebran oil is produced as a result of this procedure; it is selected for its cholesterol-lowering, optimum fatty acid, antioxidant, and Vitamin E characteristics. ABIS Ricebran Oil has a very thin consistency. Up to 15%–25% less oil is absorbed by food cooked in rice bran oil, which cuts calories and produces a lighter, healthier taste.

BENEFITS OF RICEBRAN OIL

<p>ABIS Ricebran has mild flavour</p> 	<p>It has a smoke point of 450° C, which is high for vegetable oil. It is best for deep frying and stir frying.</p> 	<p>Contains γ-oryzanol, a strong antioxidant that comprises about 2% of the crude oil.</p> 	<p>The individual compounds of oryzanol are known chemically as triterpenes esters of ferulic acids.</p>
